

## Memorandum

To: Rust College  
From: COVID-19 Task Force  
Re: Weekly Mandatory COVID-19 Testing - Students  
Date: February 12, 2021

---

In our continued efforts to keep the campus safe and COVID free and to keep you healthy, we are instituting new requirements for COVID-19 weekly testing for our students.

### Student Testing Plan for Spring 2021 Options:

- Students must get tested by a physician or their local health departments weekly to reside in the Residence Halls or come on campus for class or activities. Students must provide documentation of a negative test weekly to their residence hall director to remain in the dormitory. Students who reside off-campus will submit results to Nurse Jannie Luellen.
- If a student cannot get tested by a physician or local health department, they **must** follow the Residence Hall Schedule for Mandatory Testing (see schedule). The test will be administered on campus at the Rust College Student Health Clinic. If a student cannot get tested on Monday during their assigned time block, they **must** contact Tanya Kelly Kirk at tkelly-kirk@rustcollege.edu to schedule a testing appointment

**Student Rapid Testing will be every Monday beginning February 15, 2021 and continue weekly until the 4th module concludes. Students MUST follow the Residence Hall Schedule for Mandatory Testing.**

### ***RE: COVID-19 Vaccination***

***\* Rust College cannot mandate the COVID-19 Vaccination. The institution does strongly recommend individuals consult a healthcare provider for guidance on the Vaccination. If an individual receives both rounds of the COVID vaccination, they are exempt from testing.***

***If a student tests positive for COVID-19, please refer to the Rust College COVID-19 policy and guidelines regarding quarantine procedures.***
